### Supporting core student skills with Udemu

Jasia Stuart, Coordinator, Digital Technologies, Library

**Wednesday, December 2, 2020**

**1:00 p.m. – 2:00 p.m.**

Udemu for Business is a collection of skill-focused online courses available to all active Concordia staff, faculty, and students. This collection of over five thousand on-demand courses covers areas from data science, presentation skills, language skills, programming languages, design skills, and more. This content has a variety of learning applications, including supporting students who are struggling with foundational skills, such as writing and time management. It could also be useful to helping review or supplement other

content. This session will cover accessing Udemu, searching for materials, linking to recommended courses, and how to use and build learning pathways. It is recommended, but not required, that [you activate your Udemu license](#) before the session.

## Estimating Student Workload in Remote Classes

Dalia Radwan, Curriculum Developer, CTL

Monday, December 21, 2020

10:00 a.m. – 11:30 a.m.

Data indicates students are facing increased workload demands in the remote classroom. It can be challenging to gauge how much time asynchronous (Moodle) activities will actually take students to complete. This presentation will introduce faculty to a workload calculator that was developed at Rice University to help estimate the actual course workload for students and will examine specific tips for managing and reducing student workload.

## Supercharge your Zoom Classes

Alicia Cundell, Teaching Consultant, CTL

Monday, December 21, 2020

12:30 p.m. – 2:00 p.m.

This session will explore the interactive features of Zoom including the non-verbal reactions, use of polls, annotations, and breakout rooms, and examples of how these can be used in a live virtual classroom. The goal of the session is for instructors to consider different ways they can add engagement to their Zoom sessions and get feedback on student learning. Although participants will get to experience using these functionalities as “student”, this is not a technical how-to session.

For technical how-to using polls, breakout rooms and annotation, consider attending our Zoom drop-in sessions scheduled on our Webinars page.
